2	Any public investment will lead to a negligible change in walking/biking. What people *say* they will do and what they actually do are two different things. Research shows this will, at most, change 1% of commutes and trips and not be used by even a substantial minority of the population.	3/14/2018 10:25 AM

## Hancock County Trails Plan Public Survey

21	None. I have walked & rode my bike for many years without a trail or bike lane. This is a waste of money that could be better spent fixing potholes and field tiles that affect the septic systems of an entire street. Why not use this money to help the heroine crisis? I'm outside very often & most of the neighbors within a 6 mile radius are very rarely outside. This is the country not the city with safe places to ride & walk but people are not outside. An added trail will not get them out & about. It is rare to even see children out.	2/20/2018 8:35 PM
22	If mountain bike trails were created I would ride more for health and fun.	2/19/2018 1:33 PM
23	none	2/19/2018 8:35 AM
24	W	2/13/2018 9:45 PM
25	I'm not in favor of this because it opens up crime in our neighborhoods. It's been proven with the monon trail that break ins went up	2/13/2018 12:50 PM
26	I do not want to take away traffic lanes to add bike lanes. We don't have room for that. I want separate bike paths next to the road. I don't like having bikers in the road.	2/12/2018 11:33 PM
27	At a time when Hancock County is asking for more funds to pay for a jail. ... I think efforts need to be discussed and prioritized within the county better.	2/12/2018 11:28 PM
